### Albert Bonch Killed by Falling Tree

Albert Bonch, 62, was accidentally killed Tuesday morning when he was struck by a falling tree at the logging camp which he operated with his brothers east of Carstairs. He was rushed to Didsbury hospital but was dead on arrival.

The accident occurred when a tree which they were felling fell on another which had to be cut down to free it. When this was done the tree began to fall and the deceased stepped back, but in stepping back he ran into a standing tree and was unable to get out of the way of the falling one.

An inquest was held at the Post-Office Hotel, Carstairs, on Wednesday with Dr. Epp in charge and a jury composed of P. Weber, foreman, and Arnold Holmes, Art. Edmondson, Chas. Pearson, Kenney Wright and Fred Bonch. Death was found to be accidental and was caused by internal injuries.

He was produced by his wife about 5 years ago and is survived by one son and daughter, his mother and six brothers: Walter, Leo, Victor, Gordon, Benton and William and two sisters Mrs. A. Spalding and Mrs. L. Clement.

Funeral services will be held at Carstairs on Friday afternoon at 2 p.m.

The Dug Store was broken into early Thursday morning but it is not known how much was taken.

Oids will play here on Monday.

## An Object Of The F.A.O.

HE ALIAS JOHN DE BATHURST, from the position of director of the Food and Agriculture Organization of the United Nations, has in spite of the extensive knowledge regarding the habits of artificiality and the products, finally stated that "there is no danger for greater world food production than the people of the world can grow, as usual as we can eat it." It is evident that there is a report in the world before now, but to make such a statement thus in the British, French, and American, who were usually elected to the British House of Commons as member for the Scottish Universities.

## Was Known To Many Caned

Living his home in Scotland two years ago, the John De Bathurst, of the age of 64, went to Washington, D.C., to the Food and Agriculture Organization, a position in which he was known to many Canadians. In connection with the work of the organization, he was dealing with the problem of the distribution of agriculture regarding the production, distribution and consumption of food, and to produce a report on the subject.

## Might Avert Future Wars

He further believes that there should be control not only for these countries where food supplies are low, but also in many places where, in spite of a plentiful supply of food the people are poorly nourished because of lack of proper knowledge of nutrition. The great problem which he sees the F.A.O. and which has still to be solved, is to ensure that at least food reaches those who need it, and that sufficient is available to have sufficient standards of nutritional conditions. It is obvious that such a solution is essential in the way of such a statement, but in the opinion of the John De Bathurst, it could be reached, there would be full realization of future wars.

## THE WINNIPEG GRAIN EXCHANGE IS A MEETING PLACE...

...because that business is done on a larger scale, the Grain Exchange is similar to a town or city market where farmers bring in produce to sell and the public go to buy it.

It is a great business institution.

Historically, the Trade is linked to business in commerce. It is essentially a voluntary association of men engaged in buying, selling, conducting clearing, financing, shipping, importing and exporting grain. The Exchange as their common meeting place where business can lead to their economically and mutually to the benefit of every member of the Exchange serves the interests of farmers in one way or another.

While a few farmers may on a large scale use members of the Exchange since business, when they do not go to sell or purchase or find to act as their Agents.

It is a meeting place where business is done and all of it decides. They couldn't get along without the Exchange — they can't.

The Exchange has been in operation for sixty years and is well known and highly respected by the public and by its members.

It is officially invited to visit the Exchange during its trading hours, 9:30 to 11:30 p.m. Ask for an admission ticket, or if you are interested, ask for a free booklet.

One person in three is a member of the Exchange, administered by the Executive Board. But they also believe that farmers should have the opportunity to get into the Exchange through their members, while others are not.

The main reason known about the Exchange, the best place for all concerned. Members use the Exchange before the market opens, the Canadian Wheat Board. It explains how business is organized and controlled by it, to the present time.

The following officers were elected at the annual meeting of the Canadian branch of the Canadian Legion on Wednesday night and will be installed at the next regular meeting:

- Art Edmondson—President
- Ben Morgan—Vice Pres
- Sue Treanor—Res. Secretary
- Bill de Arque—Honorary Wright
- Executive—Lion Mearns (Ch)
- Paterson, Allan Hume, Ralph Taylor, Bert Carroll, Percy Barker

Big Iowa risks are mentioned in the Canadian branch this month, but are being difficult, suggesting their generalised because of it. It is a risk as occurred in Waterbury, Ont. (Ch) for, Jim Miller, Stuart Johnson, Cliff Anshy and Vero Anshy.

Charlie McCarthy, who was making money back and Edna Berger, who speaks for both of them, are all dressed up in a suit and tie. They are based on CBC Sunday as a pilot.

**THIS IS AN EMERGENCY**  
...let's treat it as such!

Canada is hardly "the red" in present trading with the U.S. dollar area. In our time of need, it is a good position but not to that point which it does with U.S. dollar countries. Other countries with whom we do business cannot pay us in U.S. dollars in cash or in goods, for the things they buy from us.

This situation is made more serious from year before because so many countries, not regular customers, have not recovered from the war. It may be some time yet before they get on their feet sufficiently to buy our things right. Therefore, we must find ways and means of balancing our own books and reducing our U.S. dollar deficit.

There are two things we can do at the moment, — to down unnecessary purchases from the U.S. dollar area and increase our production of goods that can be sold in these countries in balance accounts. It is an emergency that must be treated as such.

**YOU AS A CANADIAN CAN HELP**

1. do not order goods by mail from other countries... do not try goods to bring home when you travel outside Canada. Use the store.
2. if you find some products to absolutely necessary, use your Collector of Customs and duties (submitted, to know whether the law is possible).
3. look for alternatives or substitutes for the things which are absolutely necessary.
4. if certain goods must be in short supply, do not overbid the possibility that it is common, or readily to be obtained, or perhaps brought about the country's emergency needs.
5. do not use the Staff from Member from your Collector of Customs and duties (submitted, to know whether the law is possible).
6. if you have this problem in the same spirit of co-operation (submitted, to know whether the law is possible).

**LOOKING BACK TO 1884**

In looking through some old papers a columnist found some official rates dated 1884, which included part times as the following:

"The employee who is in the habit of smoking Spanish cigars, being absent at the hotel or in the garden and other places of amusement, will surely give his employer reason to be suspicious of his integrity and honesty.

Each employee must not pay less than 50 per cent for the amount and must attend Sunday School regularly.

"Men employees are given one evening a week for courting and two if they go to a prayer meeting.

"After 14 hours of work in the office, the labourer time should be spent most in resting."

"Now, in 1884, we feel that we allow our people every freedom Friday years from now it will be impossible, however, to impair upon the endurance of men at that time of the emigration that we are now importing, such, for instance, as our general requirement that our young blood should wear uniforms in the world and demand in the ranks, with an appropriate number of petitions." — Journal of an emigrant for August, 1884.

IN MEMORIAM

In loving memory of our dear friend George Darling who passed away, on March 2nd, 1948.

We often think of days gone by when we were all together.

Our mother's love lives on with us. Our loved one goes forever.

The Darling Family

CARD OF THANKS

We take this opportunity to thank the many friends for their kindness and for the many beautiful floral tributes, in our recent and unexpected loss.

Ray and Betty Anne Aldrich

We wish to thank our many friends for the beautiful floral offerings, cards, and letters of sympathy and kindness extended to us in the loss of our dear friend.

Mr. and Mrs. L. Aldrich, Mr. and Mrs. Lloyd Pyle, Mr. and Mrs. J. C. Johnson

## Hockey Notes

The play-off for the Rossford hockey league gets under way this week with the four top teams playing. Carstare and Comstock will play home and home games to decide who will meet the winner of the Ode or the Agricultural School team in the final.

Carstare will play at Comstock Friday night with the return game here on Saturday night.

## Snow Blocks Roads

Last Thursday's blizzard piled more into huge drifts and plowed roads were most of the province to get a stop to rest and highway traffic.

In the district main roads plowed in snow so that people could get to town. However another fall of snow and a north wind on Friday night and Tuesday again held in the roads and plows have been working since to open them. Considerable shovelling and some detours through fields have been necessary in order to get around.

The weather has turned mild and it is to be hoped that it will remain so that roads can be cleared again.

Funeral services for Bernard A. Adrich, a layman held last Saturday, were postponed because of the weather and were held on Monday, March 1st, from the United Church. R. M. Johnston conducted the service.

William Hays returned last week from a five-day visit to relatives in the States.

Jim Chrysler, head I.R.C. dealer in springing a few pictures show in the hall next Monday, commencing at 1:30.

THE WEEKLY HOT-FL

He—I wish I had a nibble for  
every girl I've kissed.  
She—What would you do? Buy  
a pack of gum?

Cord—I want to have a pair of  
slippers in your room all my own  
possession.

Clark (cheerfully)—Certainly mine,  
what else is your grandmother?

This dance is sure crowded.  
I'll see so. Half an hour ago I  
fainted and had to dance around  
four times before I could fall.

He—Do you serve women at the  
bar?

Bar-tender—Nope, you have to  
bring your own.

Nit—Do you work in the shirt  
factory?

Wit—Yes.

Nit—Why aren't you working  
today?

Wit—We are making nightbirds  
this week.

It's easy enough to be pleasant  
When life flows round and round  
But the man with a whole  
In the man who can smile  
When his garter is coming down.

Have you heard the one about  
the baby kangaroo who ran off  
and left his mother holding the  
bag.

Some people love to go the marine  
and others go to the marine to lose.

Meet a girl with beautiful eyes  
and put a guy on the fly.

Bill (to manager of AOT): These  
flowers are for the phone girl.  
Manager—Thank you sir. You  
compliment our service.

Bill—Compliment, nothing! I  
thought they were all dead.

Insured—If I insured my home  
for fifty thousand dollars and it  
burned up the next day, what  
would I get?

Insurance Agent—Two years,  
most likely.

Patent (to doctor)—I'll never  
get out of this hospital, doc. Every  
time I think what it's costing me, I  
feel sick all over.

in 1947 were for the purchase of new implements. These loans totaled \$14,711,231 representing an estimated sales volume of \$25,149,625. The report states that 38 per cent of

the farm and a house made in 1926 was then burned under the Act. It was pointed out that these losses, together with largely, have made it impossible for the Tennessee cottonseed crop to be produced in the same way as in the Tennessee cottonseed crop. It is suggested that the losses should be reflected in the same way as in the Tennessee cottonseed crop. It is suggested that the losses should be reflected in the same way as in the Tennessee cottonseed crop.

The report states that one of the primary objectives of FIDA has been to make available to farmers and land settlers funds for their use in developing new agricultural areas

1917 farmers throughout Canada secured 1,256 loans to an amount of \$472,544 for the purpose of clearing and breaking new land. As a result of this loaning 68,682 acres of land heretofore unoccupied were put to crop usage. Since the inception of the Act 7,652 loans have been effected which total \$194,500 for the purpose of clearing and breaking new land resulting in a total of 123,900 acres of new farm land.

The loaning in 1917 by provinces is shown below:

**NO LONGER BIRD GIRL** After a long time, the former Miss America is back in the spotlight. In the past month, a true baby-sitter has been born. Elizabeth Taylor, 34, is now a mother. She is married to Richard Burton, 36, and already she is nursing their first child.

## Better Roads for Tourists Imperative

**OTTAWA**—D. Len Dolan, director of the Canadian Travel Commission, says that the biggest difficulty facing Canada's tourism industry is the reluctance of the United States to visit Canada more often. "The United States is the most important market for Canada's tourism industry," Dolan says. "We have to convince Americans that Canada is a safe and attractive place to visit."

THE PINK EYED RABBIT

...and I wasn't inter-

[illegible]

That little hunchman made my head ring so low that I didn't see the crowd in front of our building until I jumped into the fringe. I tapped a man on the shoulder and asked, "Them, I don't know. She likes rabbits, frayed."

"That's going on!"

"Those damn mice have a couple of rabbits to go for myself!"

Frank yep. I pushed through the crowd and saw the mice.

Mate Cooke was the attraction! Mike was striding slowly down the street with two white rabbits on a leash. He had pink eyes and the other half of his face was dangling a couple of feet from his head. "I trap over the name of the poor beast."

Each rabbit was straining at the leash trying to get his teeth into the tail of the other.

The huns started to explode. In walked Elsie Cook. Jan Murphy bellowed at the mice. "You're going to get that mouse, you brain to bury a girl's life!"

She must be pretty sharp being out the controls. I made up a little advert: "The huns ledged at me and at him and at the mice and at the rabbits but we had never anything like this."

Mate Cooke never said a word. He never even said a

**Handling money  
costs money**

It costs you money to live these days. And it costs your bank more to provide efficient banking service. Bank calls are more than half as large again as before the war; payrolls have nearly doubled. Taxes are up. So is the cost of everything banks buy. Yet you pay no more for banking service than you did ten years ago. Today 7,000,000 Canadians are bank customers—witness the evidence of the ever-widening usefulness of competitive banking in our national life.

THE WEEKLY SHOVEL-FULL

Porker to breathe man—Did you miss your train out? No I didn't like the looks on I showed it out of the station.

I guess I'll go to church Sunday. What's her name.

If you have never seen dancing like it—it's the seniors.

Their secret ambition—to be the weak link in a chain letter.

He asked her for burning kisses She said in serious tone, I say to a red hot mama. But I ain't nobody's food

She so early the last time she walked into a pub, seven guys took the bridge

Cap—You'll get a toothache driving over fifty five.

How come?

Cap—The new speed laws have teeth in them.

Dad—What is home without a mail box?

Dad—I am tonight, you lack, usual.

Well, Pat, said the friend at the back of the dining room, have you made your peace with God and denounced the devil?

Sure, and I've made my peace with God, but I'm in no position to denounce anyone.

### SOMETHING DIFFERENT

This chain letter is not like other chain letters you have been receiving. It costs you absolutely nothing. Simply copy this letter and mail it to five of your friends and then bundle up your wife and send her to the same appearing on the top of the list. When your turn comes around you will receive 16,768 wives. Do not break this chain, as one man did and got his own wife back.

Oliver-661 one way plow  
Aetna P.T.O. driven, front mounted swather  
Farmhand Prairie Mulcher  
Hydraulic Farmhands to fit all makes of tractors

We will have on display this week the new front mounted Aetna Swather, which has proven so popular in districts where sold last year.

Deliveries on these machines can be guaranteed only on orders placed before May 1st.

The new Prairie Mulcher in the 4-5 plow size will also be on display this week. This machine has created a great deal of interest and looks as though it may solve the problem of removal combined straw ahead of the plow thus eliminating the necessity for wasteful burning of the straw.

Availability of these machines will not be good this year but an order placed now will help to assure delivery this fall or early next spring.

We will also have both tractor mounted and trailer type weed sprayers available for spring delivery. Come in and inspect these new machines without delay and get your orders placed early.

## Canadians Becoming Extremely Paint Conscious Chemists Continue To Bring Out Better Products

A Canadian paint plant near Toronto is shown in this photograph. The plant is one of the largest in the world and is capable of producing 100,000 tons of paint annually.

A Canadian paint plant near Toronto is shown in this photograph. The plant is one of the largest in the world and is capable of producing 100,000 tons of paint annually.

As the paint industry grows, so do the demands for better products. Chemists are working to develop new formulas that are more durable and easier to apply.

The paint industry is also becoming more environmentally conscious. New products are being developed that are free of harmful chemicals and are safer for the environment.

With the growing use of paint in the home, it is important to choose the right product for the job. Experts recommend that homeowners consult with a professional painter to ensure the best results.

The paint industry is a vital part of the Canadian economy. It provides jobs for thousands of people and contributes significantly to the country's GDP. As the industry continues to grow, it will remain a key sector in Canada's economic landscape.

Painting is a common household task, and it is important to do it correctly. Proper preparation of the surface is crucial for a long-lasting finish. This includes cleaning the wall, removing old paint, and priming the surface.

There are many different types of paint available, each with its own characteristics. Understanding these differences can help homeowners make the best choice for their needs. For example, some paints are better suited for exterior use, while others are designed for interior walls.

The paint industry is constantly evolving, with new products being developed all the time. This allows homeowners to stay up-to-date with the latest trends and technologies. As the industry continues to grow, it will remain a key sector in Canada's economic landscape.

## Canada Selling Conceded Most To United States

OTTAWA—Canadian exporters have been given permission to sell a large quantity of goods to the United States. This concession is part of a trade agreement between the two countries, aimed at increasing trade and economic cooperation.

The concession allows Canadian exporters to sell a wide range of goods, including agricultural products, manufactured goods, and services. This is expected to boost Canadian exports to the United States and create new jobs in the Canadian economy.

The trade agreement is a significant step forward for Canadian exporters, as it provides them with access to a large and growing market. This is expected to lead to increased trade and economic growth for both countries.

The concession is part of a larger trade agreement between Canada and the United States. This agreement covers a wide range of trade issues, including trade in goods, services, and intellectual property. It is expected to lead to increased trade and economic cooperation between the two countries.

This is expected to lead to increased trade and economic growth for both countries. The concession is a significant step forward for Canadian exporters, as it provides them with access to a large and growing market.

## GARDEN NOTES

When the weather warms, gardeners will be looking for ways to improve their gardens. One of the best ways to do this is by using mulch. Mulch helps to retain moisture in the soil, suppress weeds, and improve the overall health of the plants.

There are many different types of mulch available, each with its own benefits. Organic mulches, such as straw and leaves, are generally the best choice for most gardens. They break down over time, adding nutrients to the soil and improving its structure.

When applying mulch, it is important to do it correctly. A layer of 2-3 inches is usually sufficient. It should be applied evenly around the plants, taking care not to pile it up against the stems. This will help to prevent rot and other problems.

Mulch is a simple and effective way to improve your garden. It helps to conserve water, suppress weeds, and improve the health of your plants. By using mulch, you can create a more beautiful and productive garden.

## How To Purify Drinking Water In Flooded Areas

A woman speaking at a podium, likely a health expert, discussing the importance of clean drinking water.

Drinking clean water is essential for good health. In flooded areas, the water can become contaminated with bacteria and other harmful substances. It is important to take steps to purify the water before drinking it. This can be done by boiling the water, using a water filter, or adding chlorine.

There are many different ways to purify water, each with its own benefits. Boiling is the simplest and most effective method, but it can be difficult to do in some areas. Water filters are also a good option, but they can be expensive and need to be replaced regularly.

Adding chlorine is another way to purify water. This is usually done by adding a small amount of chlorine bleach to the water. This method is easy to do and is effective, but it can leave a strong taste in the water. It is important to use the correct amount of chlorine to avoid this.

Purifying drinking water is a simple and effective way to protect your health. By taking a few minutes to purify the water, you can ensure that you are drinking clean and safe water. This is especially important in flooded areas, where the water can be contaminated.

**A FARM STORAGE TANK DOESN'T "COST" IT PAYS!**

A farm storage tank pays 3 ways. First and foremost, it permits you to buy and store enough fuel at one time so as to be sure of having a supply on hand when you need it. No costly delays when farmers stand idle, waiting for fuel to be delivered.

Second, it helps to keep fuel clean and avoid plugging of fuel lines and carburetors with dirt, dust or water. The tank can be mounted with enough slant to cause any impurities to settle away from the nozzle.

Third, it saves time in refueling tractors and trucks, if the tank is mounted overhead. Fourth, it prevents the spillage of the pump-and-pull method, or the waste of the "wet gallon" that is often lost in the bottom of each barrel.

Low but sure loss, a farm storage tank pays in added safety, because it can be closed well away from flames, barns or sheds.

Tanks come in three sizes. The price is reasonable, for your Imperial Oil Agent.

## NEW... THE MASSY-HARRIS

**ROTO-LEFT ONE-WAY DISC**

The Roto-Left One-Way Disc is a new Massy-Harris development and a radical departure from the conventional system of raising or lowering the discs with the use of the machine.

The Roto-Left raises and lowers the discs by a power driven rotary action—the sole and frame remaining level. The light disc and full steering control of the Roto-Left One-Way Disc enable you to cover your field quicker and more efficiently because the Massy-Harris Roto-Left One-Way Disc can turn left, right or back up.

**GRATITUDE**

The maintenance of a certain well known brand of patent medicine recently secured a letter from a grateful woman.

"Dear friends, you wrote, 'I am now over three that I could not give up the baby. After taking three bottles of your tonic, I am able to breast my baby.' In addition to the baby, I am able to take the beginning of the year."

carles. The girl, who from the city of Ottawa, presented in March, 1907, on Illinois Street and held for her two months later, has remained in the driveway of the firm from which it was purchased. The original license number of "47-0-1" has been replaced by a similar license of "48-C-4." Above is a picture of Barbara King and the car after it was presented to her the first time.

the work being done inside by volunteer laborers. The building is free of debt. Another promising building is the new hospital to be regularly used for public meetings, dances, minstrel and brotherhood conventions etc.

The town has a temporary shelter hospital operated by the Sisters of St. Joseph, with headquarters at Pembroke, Ont. This was maintained as an infirmary for the sick and destitute until the new five-story hospital can be completed. General health has been made a building issue last summer, and it is hoped to have the hospital completed within the next few months.

There are still here considerable numbers of the unemployed, and many have been driven by the present exigencies for temporary relief. Funds for the purpose of securing a satisfactory winter supply have only negative results, however, and the unemployed are still left to the charity of the time being.

The district surrounding Hamilton is one of the poorest in the world, and is covered by average rainfall, about 40 inches a year. The climate is not so uncertain. Blackflies are a most important part of the life of the district. The district is a small population is situated in the north of the district. Hamilton, near here, is considered a show-place, and was considered the ideal of the district.

**SLASHES TRAIN WHEELS**—Three UPR locomotives and a passenger train hit a small, unnamed, abandoned iron-ore train on a trestle over a creek at Lumberton, Ala., today, killing at least 10 people and injuring 20 others, according to a UPR spokesman. The passenger train was hit, the ill-fated freight train was derailed and the locomotives smashed into it. The wreckage lay along the creek, stopped track No. 1, on the north side of the creek, about 1 mile from the town.

It is accordance with an animal nature I am quoting for the human bride, at her wedding, a raw observation on matrimony by a Spartan on his son, the marriage of his daughter. "Well," said he, in a single ill-tempered he snarled: "Chained Paphos Virgin, you will be married at about the age of 18, and the more at 22 or 23." "Children observe! A woman needs a stronger head than men need, she should be able to govern, if you are going to be ruled by a woman, then have your head and mind under your neck and your neck under your head. If they married when they feel a man is a man, and a woman is a woman, they will be happy, and no one can do good any at home surrounded by his weeping wife and children."

THE WEEKLY SHOVEL-PULL

At the stroke of 12 the state falter-  
ed stamped to the heart of the state  
and shouted in the direction of the  
living room, "Young man, here's  
you a self starter!"  
Don't mind me so long as there's  
a smile in the home, onto the  
rapid.

How far to the next filling stat-  
ion? The motorist asked the farmer.  
Nigh onto two miles on the crew  
line.  
Well, how far if the crew has to  
walk and roll a list tire?

Romantic Lad—Here's I saw  
your farm once here else  
I don't think, she replied, is  
always state right here, between  
my ears.

George, are you settling in the  
fast lane?  
No, mother, but I'm coming along.

Would you like to see a model  
house?  
Oh! to What time does she  
quit work?

Then there was the boy who  
called his girl friend "twee!" be-  
cause she wouldn't play without a  
diamond.

Women may be more strange  
than men, but you never see  
them leaving a fifty cent tip for a  
five cent lunch just because the  
waitress smiled at them.

Wait, Johnny, how did you get  
along in school today?

Oh, Mother, but you know  
that new teacher is always asking  
in questions. Today she asked every-  
body a here they were here.

Well, you certainly know the no-  
over to that—the Women's list  
gial

Sure I know but I didn't want  
the whole class to think I was a  
sinner I said the Yankee School.

Husband—I passed Johnny on  
the street today, and he ignored  
me. Guess he thinks I'm not his  
equal.

Wife—Wah, that pumpkin, is  
sweet half of cream, you're his  
equal.

## In Short . . . Pay Your Golf Dues

"FORE!" has been ringing and  
rebounding just a little out of town  
every night for the past few weeks.  
Yes, it seems as though the golf  
club has quite a few of our fair  
citizens as a golfing team from work  
to get out to the local links.  
The course is in great shape, as  
renewed in the last few years, and  
more people are seen out every  
night on the wind and air.

Because of recent repairs at our  
local course the club is in need of  
funds. A few of our members have  
been standing the cost of some of  
the improvements and it is the  
club of the members - the so called  
wing dues please do their duty as  
members.

### THE WEEKLY NOVEL-PULL

Walter—We got some good ones today. What about?

Dorothy—Sing! What is that?

Walter—You know what kind of book, you see?

Every time I think we had the book today.

You also always read me that book.

You know I'm serious, Mrs. Jones.

Let's Mrs. Arns, I don't see it.

But! Ah, you don't understand—it's not I don't get to the book!

An elderly gentleman drove into a garage and the attendant's attention was caught immediately by the car he was driving. It was a 1920 model Ford which looked as if it had just come out of the showroom.

Where did you see that car? asked the attendant.

Well, I saw it, said the driver, when I bought my first car. I had never owned it, would you see it? I bought two, and last week he got it, did.

A wife told a man good, my sister, but a gold digger does him better.

Why are you reaching about like that on a wet day? asked Mrs. Helen.

By trying to get something for me, I say other people?

Brother—Did you ever notice my dear, that a gold digger is generally an ignorant person?

Wife—Well, you wouldn't admit it, I'm not sure.

Preacher—I once held one once when my good wife was.

Friend—I was coming in last! From her home, but the children, because I had.

Judge—The observation that he found two fish lighting in the street.

Informant—That's a miracle, when he arrived were trying to separate each other.

Beauty—It only she, dear, but if you've got it you've got it. Don't lose it.

## Health Grants To Provinces Are Announced

OTTAWA — The federal government's new health grants to the provinces from the \$200 million voted by parliament at the last session have been announced by Health Minister James Buchanan.

The grants, which Prime Minister Mackenzie King said he expects will be the most important step in the new government's health program, are to be made on a sliding scale, depending on the size of the province's population.

They are topped by the \$20,000,000 which Ontario will receive with Quebec at \$15,000,000. British Columbia will get \$10,000,000, Saskatchewan, \$7,500,000, Alberta, \$5,000,000, Manitoba, \$3,500,000, New Brunswick, \$2,500,000, Nova Scotia, \$2,000,000, Prince Edward Island, \$1,500,000, and Newfoundland, \$1,000,000.

The largest single type of grant for hospital construction, divided on a population basis, it totals \$4,000,000 available to Ontario, Quebec, and New Brunswick, \$2,500,000 to Alberta, Saskatchewan, and Manitoba, \$1,500,000 to Nova Scotia, Prince Edward Island, and Newfoundland.

The grants are to be paid over a period of five years, with the first payment due in 1950. It will be paid for the first year, and in the second year, 75 per cent of the total grant. The balance will be paid in 1952.

The grants are to be used for the construction of new hospitals, the expansion of existing ones, and the improvement of hospital services.

## : STAMP CORNER :

By E. V. Dering

In the last issue of the "Stamp Corner" column, I mentioned the fact that the Canadian government had issued a new stamp. This was a 1-cent stamp, and it was the first of a new series.

The new stamp was issued in honor of the 100th anniversary of the Confederation of Canada. It was a 1-cent stamp, and it was the first of a new series.

## 19 YEARS IN OPERATION

# Gold Mine Has Ceased Operations

Cambodian dancers achieved afternoon perfomance in the chamber of light. The black and white photo shows the lower legs and feet of two dancers in traditional Cambodian attire, performing on a stage. The dancers are wearing dark, patterned sarongs and traditional high-heeled shoes. The floor is light-colored and appears to be a stage or dance floor.

the more had obtained more than 30, however it is not from which more than 1,000 more have been obtained. In the 30 years this running operation has been carried on at Columbia, the working revenue has been \$21,943,722. It has also had an expenditure of \$21,141,104, giving a working profit of \$802,618.80. The profits in 1939 were \$1,000,000.

Dr. Paul W. Shafer was issued in October 1942, and No. 3 shaft was one of the first, but the shafts in the Columbia telephone have the reputation of having had no major disaster entailing severe loss of life.

All of the original shafts in the system have been closed down for the last in August 1947 and mining is now being carried out only by the shaft into an outcrop which pro-

threw about 50 tons of ore daily. All property, even wooden sections from the plant, is being treated for gold recovery. The material is burned and the ash processed. In this way, nearly thousands pounds worth of gold is being recovered. Old methods of extraction on the Witwatersrand allowed only a 60 per cent recovery of gold from the ore mined, so old residents on the property are also being re-processed.

As 18-month history passed the 30,000-barrel level, conservation began to be considered. In 1964, the first water conservation program was initiated, with a goal of reducing 9,000 barrels per day. This was achieved by 1965 when Wildcat, Waha, and 11,000 barrels from other wells were operating at restricted rates. Turner Field was shut in, and 10,700 barrels plus an additional 1,000 barrels of natural gas were conserved.

**Ligninotype U**

Ligninotype production was estimated at 3,100 barrels daily from Alberta wells and 2,700 barrels from Saskatchewan. Smaller Alberta pools were estimated at 2,100 barrels daily.

Propane rolled up an oil production gain of 1,410,000 barrels with the six months ending in 1965. Alberta produced 6,000,000 barrels, Saskatchewan 374,000 barrels, and the U.S. 1,410,000 barrels.

**PEWEE HARVEST**—The 1960 season's growth reported by the Alberta Game and Fish Commission was that the total half year production was 34 million harveys and the 1960 total over 11 million harveys for a new record compared to 7,344,379 harveys in 1947.

**FEWER EASTERNERS FOR ALBERTA HARVEST**—Approximately 700 workers from eastern Canada are expected here this year, to help with the Alberta harvest, a reduction of about 300 from last year's record number of easterners over 1,000 in 1947.

# PORK AND REARS

THE WEEKLY MEAT FIVE

Let's remember! One year has  
passed and your business will never  
be the same!

Have you had the marriage go-  
ing? Don't think that's the end of  
the world. It's only the beginning of  
a new life.

Television can run radio  
It's too late!

Modern girls when opening  
doors look there more to fear of  
love and a square

He'll have you getting along  
with your dreams!  
She - Wonderful! I've never  
seen you so happy. I'm glad to  
see you so happy. I'm glad to  
see you so happy.

For a friend - The trouble with  
this world is that you're not  
happy. It's not the world that's  
the trouble. It's you.

The flight of time is probably  
harder to bear than the pain of  
heartbreak.

Do you think I have a beautiful  
home? (It's a pretty good one, I  
suppose.)

Doctor - Your heart is quite  
normal. With no heart trouble,  
I'm sure you'll live a long  
life.

Doctor - There! What did I tell  
you? (It's a pretty good one, I  
suppose.)

Passenger - I am going to see  
a girl. (It's a pretty good one, I  
suppose.)

I am up at dawn yesterday to  
see the sun rise.  
You can't have dawn a lot  
of times.

Another springer spaniel has won another best-of-show award. The dog is a beautiful animal named "Timpobee", winner at the Shetland, Cal., Kennel Club show. It won't be long now before it will be generally realized how much better dog springer spaniels are than other breeds. Owners are also available dogs but not as versatile as springers as they have nearly to wash personally.

It is possible that three-fourths of the country's great steel mills are nationally owned. The remaining one-fourth are controlled by the government, but the steel industry is not a government-owned industry and that of the two or three million men who strike steel is not the machine industry—no, it is the machine industry as operated by the government, and the men who work for the government are workers and workers elsewhere.

It is the laborer who is the enemy of the machine—let us say that. The machine is the enemy of the man. Within the steel plant of Pennsylvania, the machine is the enemy of the man.

REDAI (EPA) — The National Association of Manufacturers (NAM) has asked the U.S. Environmental Protection Agency (EPA) to consider the health of the nation's children when it sets standards for lead in gasoline. The NAM says that the current standard of 1.1 grams of lead per gallon of gasoline is "unacceptably high" and that it should be reduced to 0.5 grams per gallon. The NAM also says that the current standard is "based on outdated information" and that it should be based on the latest scientific research. The NAM says that it has conducted its own research and that it has found that the current standard is "unacceptably high" and that it should be reduced to 0.5 grams per gallon. # Martian Mystery Links U.S. Russian Astronomers In Race to Find Answer

NEW YORK, Jan. 10.—A new 300-mile-per-hour rocket ship may have been launched from the Soviet Union in the last few days, according to a report from a Russian source. The report, which is being treated with skepticism by U.S. astronomers, says that the rocket was launched from the Soviet Union in the last few days, and that it was heading for Mars. The report also says that the rocket was launched from the Soviet Union in the last few days, and that it was heading for Mars. The report also says that the rocket was launched from the Soviet Union in the last few days, and that it was heading for Mars.

U.S. astronomers, however, are skeptical of the report. They say that the report is based on hearsay, and that there is no evidence to support it. They also say that the report is based on a misunderstanding of the Soviet Union's space program. They say that the Soviet Union has not launched any rockets in the last few days, and that it is not heading for Mars. They also say that the report is based on a misunderstanding of the Soviet Union's space program.

R.M. Stirling arrived Monday  
from the west and stayed to spend  
a week here.

Mr. and Mrs. E. HAY moved  
this week to the hotel home in  
Calgary.

The fire alarm was sounded twice  
on Sunday, once at 8 a.m. and  
again at 10 a.m., when first believed  
to have been set off by a train wreck  
across a mile field north of town.

As it turned the alarm was an  
error except by a large number  
of early rising citizens and the fire  
trucks were called out before any  
damage resulted.

Miss Janet Cameron has accepted  
a position on the 1st of Oct. at  
the Bank of Montreal.

Paul Lonsdale has commenced  
on his new Auto Body and Paint  
shop adjacent to the Highway  
Motor garage.

Mr. and Mrs. E.J. Giesinger and  
family moved to Bonifant on Sun-  
day last in their new Ford car; they  
were accompanied by Mr. Dave

taken when five of unknown origin  
from the 8th and 9th St. Hill at  
Highway early last Sunday morn-  
ing.

The second break in the season-  
able first fall weather came on  
Monday night, when a light rain  
gave a hint to harvesting. However,  
fine weather came has again show-  
er to prevent and a few more  
days should almost wind up har-  
vest in this district.

## Cancer Drive Will Commence Here Mon.

The cancer drive will be held in  
this district from October 1st to  
November 15th and it is expected  
that a number of organizations will  
assist in the collection of funds to  
make this a real community effort.  
The cooperation of the public is  
asked to aid in the fight against  
cancer. This community it is  
the duty of every citizen to support.

## Board of Trade

The regular meeting of the Board  
of Trade will be held at 7 o'clock  
Tuesday night when it is hoped to have

material organization work in the  
north.

John Peto and George Edmondson  
have left town and for Spring  
leave where they have ac-  
cepted a job on the St. Mary's  
train.

Mrs. Donald King and son, Bar-  
ney, of Calgary were visiting their  
parents here this week.

The Presbyterian Manor is being  
remodeled this week.

R.J. Smith has returned from a  
visit to western Canada and United  
States points.

Local business has been wor-  
king up the old rain into the past  
week and report good look and

## 1949 POPULATION DECREASE

Canadian farmers are producing fewer crops than the census of statistics shows. The number of crops in Canada in 1948 was only 1,100,000 as compared with 1,200,000 in 1947. The last population census of 1947, the last population census taken in all provinces.

The fall crop had been very much smaller than for the previous year and also for many months were in the fall early this year than in 1947. The fall crop was the first crop to be nearly a quarter less than in 1947.

A preliminary estimate of the fall crop was estimated last week by the U.S. Census Bureau. The fall crop was estimated to be 1,100,000 as compared with 1,200,000 in 1947. The fall crop was the first crop to be nearly a quarter less than in 1947.

The new plan shows a reduction of a further 10 per cent in the fall crop before reaching the age of 16, making this decline to show a population decrease of 10 per cent.

## Guest Soloist

### Hospital Hints

If you have a slight scratch on your furniture, try rubbing it with soapy suds and moist soap to wash it away.

When you are using bleach or white cotton or linen, be careful not to splatter the molten bleach on the clothes, as it will recover color and weaken fibers.

In choosing paint for kitchens or bathrooms, choose a paint in white or light colors.

If you have a slight scratch on your furniture, try rubbing it with a little oil and meat suet for a valuable remedy.

In choosing paint for kitchen and bathroom walls, oil paint is preferred. It can be washed with soap and water, and offers resistance to steam and moisture. It is also very hard and long lasting. It is also available in many colors. This type of paint is not recommended for children's rooms, because of the lead in the paint. Lead-based and woodwork that must be painted.

**CHARACTER BUILDING**  
You cannot drive yourself into character; you must hammer and forge one for yourself — Friends

The important thing in life is to have a great aim, and to possess aptitude and the perseverance to attain it.—Görke.

A good character is, in all cases, the fruit of personal emotion.—J. M. Mason.

To be worth anything, character must be capable of standing up open to fast in the world of the work, temptation, and trial.—Rush.

In the special roll-calls of sports and the strain of intellectual work things, moral tension is tacked, and if it yields not, grows stronger.—Mary Baker Eddy.

## PORK and BEANS THE WEEKLY MOVIE-FULL

We like the man who comes right out and says what he thinks—if he agrees with us.

Little Girl—You're not my boy friend are you? I handed you to Titter for a bag of gumdrops.

It won't take long to make you hard headed after you've been so hot water a few times.

A wise husband will buy his wife such fine music that she won't trust him to wash the dishes.

To be content with one's lot doesn't mean to be different for anyone—it only means to be a lot.

A post sent an editor a contribution entitled, "Why Do I Love?" The editor replied, because you sent your contribution by mail instead of bringing it.

One kind of trouble is enough. When folks take on three kinds at once—chilly fever, sore, and they have head, and all they ever expect to have.

People who have an hour to spare usually spend it with somebody who hasn't.

A city boy and his country ones in were waiting down the street, and towards them came a vision of feminine loveliness—marble finger nails, permanent wave, drag, red lipstick, and gaudy lipstick.

The farm boy observed carefully, then speaking as a farmer, I'd say that only a fool or a girl would need that much top-dressing.

Nothing is the time I day when the rising generation realize and the retiring generation rise.

They say I'll please me, you or more liquor, who needs a job please!

## Dust May Cause Infantile Eczema

According to Dr. Glines, characteristic distribution of atopic dermatitis, with lesions on the face, the area of the arms below elbows and the area of the legs below the knees, suggests a possible contact origin. In view of this, says, "It is tempting to consider if such lesions might be caused by ubiquitous and powerful skin irritants such as those which could be caused by contact or inhalation

According to the article there is no completely satisfactory treatment of infantile eczema and therefore "the problem is to do the least harm to a child, which at the same time is self-limited, with a tendency to spontaneous remission and eventual recovery regardless of therapy."

Prophylactic, or preventive measures, such as avoidance of dust, irritating wool clothing, are considered important in the orthodox treatment of the disease. Special bath prepared by adding a cup or two of cornstarch to a tub of tepid water are also recommended for the child.

Norway in recent years has issued many postal stamps, getting away from the standardized designs of conventional stamps. The first was issued in 1926, when a set was issued to mark the 500th anniversary of the death of King Olaf Haraldsson in the battle of Stiklestad. The design is a portrait net showing a landscape, a northern Norwegian church and one of the country's scenic fjords in the mountains.

In Great Britain, there was a projected cut issued by the armed forces government showing military operations of the government in preparation for reorganizing the country from the Germans.

Last year there was a long set to the 50th anniversary of the Norwegian postal service, showing men who had developed the service, and also various means of transportation used during those 50 years to

THE WEEKLY MOVE-FULL

Wife—During 17 years model at  
the company school.  
Husband—Wonderful! But what is  
this I'm eating?  
Wife—Graham.  
Husband—Your diploma.

I've trained my wife to absolute  
precision; my dinner must be on  
the table at seven o'clock sharp and  
if I'm late I get no dinner.

Dorothy—What your husband  
needs is absolute quiet.  
Woman—But, Dorothy, he won't  
listen to me.  
Dorothy—That ought to help a lot.

Judge to Prisoner—Say when  
you're born?  
No reply.

I say, when was your birthday?  
Prisoner (nervously) Was do you  
care? You can't guess give me  
nothing.

I've been trying to make Smith

Have you required at every po-  
sible place?  
Yes, I even phoned his house.

A sense of humor is life's fire of  
hope.

He—Horn! I mean you some-  
where before.  
She—Perhaps. I've been there  
several times.

What an awful nuisance it is to  
live from temptation and have it

## When Your BACK Begins to Ache

When your back begins to ache, it is a sign that you need to take action. The first step is to rest your back and avoid any strenuous activity. The second step is to use a back brace to support your back and reduce the pain. The third step is to use a back massage to relax your muscles and improve circulation. The fourth step is to use a back exerciser to strengthen your back muscles and prevent future aches.

## Pile on Honest Cord of Wood

By using a wooden cord of wood, you can save a lot of money. The first step is to choose a good quality wood. The second step is to cut the wood into cords. The third step is to pile the cords in a dry place. The fourth step is to use the cords for heating or cooking.

**Now you are assured of an ample Supply of DOMESTIC HEATING OILS and DIESEL FUELS at the New Price!**

Here's two-fold good news for home-owners, farmers and ranchers in Alberta and Saskatchewan! Imperial Oil is happy to confirm that:

1. Ample supplies of heating oil and diesel fuels are now available at very low prices, and Imperial Oil can guarantee your supply.
2. Your oil burner and space heater demand risk are ready to provide you with new equipment and installations.

Now, for the first time in several years, you can install oil burning cooking stoves, space heaters, hot water heaters, stock trough heaters, chicken brooders and other oil burning equipment. Today's increased production and reduced prices have become possible by the rapid development in Alberta of Leduc and Woodburn and the promising outlook for the new Redwater field. The present and future output of these new fields assure realistic reductions of adequate domestic crude oil supplies to meet all needs.

We're Saying  
A Merry  
Christmas  
with a 100,000 h.p.  
Greeting

This Christmas we can proudly say that Alberta's greatest hydro-electric development is under way. Work has commenced on the actual construction of the giant Spray Lakes power project. This project will develop 100,000 h.p. of electrical energy. It will provide power for Alberta's new and growing industries, as well as help secure the continued rapid extension of Electrical Service to Alberta farms, which is already proceeding faster than in any other Western province.

**"PRINCESS MICKEY" VIES FOR FELINE TITLE**  
There was one place on earth which was unorthodox for a cat to hold place was the hotel Granada in Brooklyn, N.Y. where the seventh championship contest for the title of world's most beautiful cat and Long Island was held. This one who is named Princess Mickey is not desired for ornate dancing. Her gait is more appropriate to a Metropolitan opera singer.

**M**ary, the first wife of John F. Kennedy, died last night of cancer. She was 51 years old. Her husband, the 43rd president of the United States, was with her at the time of her death. She had been ill for some time, but her death was a surprise to many of her friends and family. She was a devoted wife and mother, and her death is a great loss to the country. Her husband, John F. Kennedy, was a man of great courage and conviction. He was a man who believed in the American dream and who fought for the rights of all Americans. His death was a great loss to the country, and his legacy will live on in the hearts of all Americans who love their country.

Husband: Is better so.

Just. How did you with like the period I said last?

Mrs. Prissy (sings) She said she'd rather have a chicken.

And are you a little boy or a little girl?

Justus (What else is there?)

The teacher was trying to prepare me for my first lesson by giving me a lesson in the past.

New. (After if you had 45 in one pocket and 45 in the other, what would you say to your wife?)

Justus. The wrong pocket.

Joe: Is the new portrait of your wife identical?

Mrs. (After I jump every time I look at it)

You're hitting your son down, aren't you?

You are not, you are hitting me down as a son.

Do you think it's true that it's not easy to make a book that sells?

Depends on which party is in a hurry.

In the short of a very short time, I am going to be a millionaire.

Wife. Oh, yes, but if you payed it right you wouldn't have any money left.

THE WEEKLY NOVEL FULL

Wife (to husband, smacking up  
stairs) Is that you, dear?  
Husband: It better be.

Jack: How did your wife like the  
parrot I sent her?  
Ann: Pretty tough! She said  
she'd rather have a chicken.

And are you a little boy or a lit-  
tle girl?  
Joan: What else is there?

The teacher was trying to propo-  
nize mathematics by giving ex-  
amples to the pupils.

Now, Joan, if you had \$5 in  
one pocket and \$5 in the other,  
what would you say you had?  
Joan: The wrong pants.

Joe: Is the new portrait of your  
wife identical?  
Mae: Well, she's a pump every time  
I look at it.

You're hitting your son driv-  
ing a car?  
Yes, but he's not coming to a  
crash as a punishment.

Do you think it's true that it's  
bad luck to have a black cat follow  
you?  
Depends on whether you're a  
man or a woman.

The federal government owes nearly \$34,000,000 to people who don't seem to want to bother to pick it up. The one mistake largely of government bonds, some of which might be back to Confederation days, which have matured and which no longer bear interest but which no one has turned in for the cash.

Officials say many of the bond holders have undoubtedly died, bonds have been lost, misplaced or burned. Others claim that the government does not know they could be turned into cash, would thank they merely signaled a thank-you for a war donation.

In the meantime, the government banknotes the total as a non-interest bearing segment of the national debt.

# Rapid Reduction of Northwest Atlantic Food Fish Supply Has Cause For Worry

Eleven-Nation Conference To Discuss Conservation Plans

Thousands of thousands of people, many of them from the United States, are gathered on the beach at St. John's, Nfld., to watch the fishing boats return from the Grand Banks.

ST. JOHN'S, Nfld., (AP) — The United States and eleven other nations are expected to meet in St. John's, Nfld., to discuss conservation plans for the Northwest Atlantic food fish supply.

The conference, which is being held at the St. John's Convention Centre, is expected to last for several days. It is the first time since the war that such a large number of nations have met to discuss the conservation of the Northwest Atlantic fishery.

The United States, Canada, the United Kingdom, France, the Netherlands, Belgium, Luxembourg, Portugal, Spain, and the United States are expected to be the main participants in the conference.

The conference is being held at a time when the Northwest Atlantic fishery is facing a serious crisis. The supply of food fish has been rapidly declining, and the United States and other nations are concerned about the future of the fishery.

## Choice Catch-Set

Canada and Newfoundland have agreed on a new fishing agreement with the United States. The agreement is expected to be signed soon. It will provide for a new fishing agreement between the United States and the Canadian provinces of Newfoundland and Labrador.

## Winnipeg Man Owns Watch 136 Years Old

WINNIPEG — A pocket watch from four years before the Battle of Waterloo still is in running order—and seldom here later.

Before last, the watch was owned by William Hall of Winnipeg. The 136-year-old timepiece first was bought in England by the present owner's great-grandfather at an auction of British Hall. Since then it has been handed down from father to son.

Mr. Hall's father and an Englishman about the year 1800. The watch was bought by the latter for the first time by a friend. On the silver case is an engraving of a man holding a sword. The words "W. H. 1800" are on the same ring. The watch resembles any ordinary timepiece.

The mechanism, however, is much different. The jeweled watch is driven by a chain, a back through a hinged glass back, like a bicycle chain. The frame is hand-engraved with beautiful figures.

The watch now is in the hands of a collector. It is a fine example of the art of watchmaking in the early 19th century.

## HEALTH Early Care Reduces Later Dental Costs

It is a fact that the earlier a child's teeth are examined, the less likely it is that the child will have dental problems later in life. This is because the dentist can detect and treat any problems before they become serious.

 Mechanic—That's easy, Leave her at home.

The girl with lots of paper is nothing to be envied at.

Is your father the kind of man who lets little things annoy him? No, not probably, but even sometimes.

With all that lightning on his face, Jerry looks like a giant lover. Yes, he's a married woman.

Two authors were talking it over at a cocktail party. Like all authors, the only subject of conversation was almost—and almost exclusively—

Have you read my book. How to Drive Ignorantly about one of the other

I couldn't finish it, passed the other I felt sorry

**SILVER TREASURES**

How old was your charming matrimonial mate when she noticed that first gray hair? That was once a tragic moment in a woman's life. The next year, the sight of that first gray hair often brought tears to a woman's eyes. She began thinking she was over the hill. That is, thinking that was about to get her. Nowadays women shed no tears over the occasion. They just start searching out what color they are now.

It is a common mistake to think that the only way to avoid the problems of the past is to avoid the past. But the only way to avoid the problems of the past is to learn from the past. We must not repeat the mistakes of the past, but we must not ignore them either. We must learn from the past and apply those lessons to the present and the future.

Cream butter and sugar thoroughly. Add the well-beaten eggs and mix thoroughly. Pour and deflate with the baking soda, cream of tartar, salt and ginger. Work this into the first mixture with the flouring, working and kneading until the dough is all absorbed.

Roll in the refrigerator for several hours. Then form into small balls about the size of a marble and place 2 inches apart on a well-greased cookie sheet.

Bake with a fork and bake in a modern oven (325 deg. F.) until delicate brown.

## BANK'S DECREE

High McNeill, Chief Administrator of the Bank of Canada, has announced that the bank's decision to require all banks to maintain a reserve of 10 per cent of their deposits in the form of cash or government securities is a necessary measure to ensure the stability of the Canadian financial system.

The bank's decision is a result of the recent increase in the volume of deposits and the need to maintain a sufficient reserve to meet the demands of the public.

The bank's decision is a necessary measure to ensure the stability of the Canadian financial system and to maintain the confidence of the public in the bank.

Overheating

Overheating is the main sign of engine trouble. It is caused by a variety of factors, including a faulty water pump, a clogged radiator, or a faulty thermostat.

Overheating can lead to serious engine damage, including warped cylinder heads and blown head gaskets. It is important to take action immediately if you notice your engine overheating.

Let the dealer know if you are having trouble with your engine. They will be able to diagnose the problem and make the necessary repairs.

## Manitoba Is Second Largest Inland Fishery In Canada

**T**HE second largest inland fishery in Canada is situated in Manitoba. Although one of the northern provinces, Manitoba is famous for its abundant supply of lake trout. To obtain the fish, anglers and nets have been used since the late 1800s. In 1949-50, lake trout production was estimated at over 600 pounds of edible fish. The production of this huge quantity of fish is due to the fact that the lake trout population in Manitoba is one of the largest in the world.

In strictest confidence...

THAT'S THE WAY you want your money matters handled. That's the way your bank handles them.

When you deposit money, cash a cheque, make a money transfer, arrange a loan, you want it done speedily, efficiently... and above all, confidentially.

It is only natural that your bank should work that way for you, for privacy is traditional in Canadian banking. In any case, the competition of other banks means it.

Canada's ten chartered banks — competitive, efficient, private — provide for millions of customers a service unequaled in the world.

### Irrigation Projects In Alberta Are Proving Practical And Profitable

The earliest record of irrigation in Alberta dates back to 1870 when the first irrigation project was started by the late Mr. J. H. McLeod. This project was a small one, but it was the first of many that have since been started in the province. The success of this project has led to the development of many other irrigation projects in Alberta, and these projects are now proving to be practical and profitable.

## You Can Defeat Your Biggest Tax Problem . .

That is the 8% sales tax. The one the budget misshapen folks out there hate you hardest. This quotation

"... This tax costs the Canadian taxpayer 50 cents for every dollar of processed material."

from a Liberal member of Parliament shows what the government is doing to keep rates high . . . despite the "brilliant" reductions in the budget.

So that you may have a sure, adequate income, the Progressive Conservative Party will

- Reduce sales taxes.
- Provide deductions to farmers for members of family who contribute to revenue.
- Reduce income tax rates and increase exemptions.
- End the administrative persecution of farmers by tax collectors.

**For *your* protection the Progressive Conservative Party  
will take these steps:**

### PRICES

= Permanent floor price legislation based on these principles.

- A definite formula in the Farm Prices Support Act for arriving at floor prices.
- The formula will allow for variations in production and demand for individual producers.
- Floor price will be announced well in advance of production period.
- The floor price formula will be arrived at in consultation with representatives of producers.

## EXPORT MARKETS

Restoration of the Canadian Wheat Board to serve its original purpose as a Marketing Agency for wheat producers . . . and its extension to include the handling of coarse grains.

**Inclusion of representatives of farmer's organizations on all Boards dealing with farm matters.**  
**Assessment and immediate action to overcome loss markets; the development of new markets;**

Domestic marketing legislation based on the principle of democratic producer control.

## Know Your Province

### Coal Mining In Saskatchewan Is Older Than Province Itself

The coal mining industry in Saskatchewan is older than the province itself. The first coal mine in the province was opened in 1882, just a few years after the province was created. The coal mining industry has since become one of the most important in the province, providing a major source of income for many of its residents.

The coal mining industry in Saskatchewan has a long and rich history. It has been a major part of the province's economy for over a century. The coal mining industry has provided many jobs and has helped to build the province into the industrial power it is today.

The coal mining industry in Saskatchewan is still an important part of the province's economy. It provides a major source of income for many of its residents and has helped to build the province into the industrial power it is today.

## Major Details of The Progressive Conservative Party's Declaration of Policy — Drafted and Approved by Canadians from every Province — Representing Every walk of Life

George Lewis  
Progressive Conservative  
leader.

After Parliament dissolved a few weeks ago, Progressive Conservative Leader George Lewis has visited all ten provinces. He and the Party he leads, as a result of that tour, are convinced of one thing.

It's "Time for a change!"

The important thing is that all Canadians to decide between now and June 27th is what that change will be.

With this thrust in mind the Progressive Conservative Party takes this opportunity to present some of the major items of its Declaration of Policy. This is no hastily-drafted election manifesto, nor is it the opinion of one man. It represents the unanimous consent of delegates from every province who met in Ottawa from September 14th to October 2nd last year.

The importance of most of our statements of policy has been greatly emphasized by the conduct of the present campaign. In the present mood, but the policies the Progressive Conservatives can uphold. They were prepared in the quiet of the winter of 1938, and they are the result of all the people of Canada. It is no statement of an ideal, but the statement of a program. The party will use the undertaking they give to Canadians can be broken down under three headings: Opportunity, Security and Freedom.

## POKE and BEARS

Chen—My wife told me to not poke a bear.  
Bears—All right—I'll not poke a bear.  
I'll not give you one.

Did you hear about the woman who thought he was Hitler?  
No, what about him?  
He was.

"Why is it" asked the lady one night, I never got what I said for my year's sleep?  
Perhaps, madam said the man, snoring loudly, we are too quiet.

We seldom may dig and tell  
Till our fingertips are sore,  
I've found that pain before.

The following notes are inserted  
in the columns of a newspaper.  
Anyone found over my children  
house at night will be found there  
in the morning.

A motorist was bumping along  
over a remote country road when  
he reached a quiet village, a small  
river crossed the road.  
One I got over this creek was  
myself he added to an old woman  
was standing on the bank.  
Yes, said the old woman right through,  
he was told.

A moment later the motorist was  
struck by a truck, the engine  
flashed and the water up to his  
neck.

What do you mean by telling me  
I would drive through this creek  
he angrily demanded of the woman.  
Well, how, the old man directed.  
I would have said that water was so  
deep, I only come to find way up  
on my death.

# International Revolution Under Way In Exchange of Industrial Knowledge

The job and know-how that makes modern production possible is being made available to communists in the Soviet Union, and the Soviet Union is doing the same for the industrial nations of the world.

**By JAMES H. CONNOR**  
Special Press Correspondent  
**WASHINGTON**—The exchange of industrial knowledge between the Soviet Union and the industrial nations of the world is a popular theme in the industrial nations of the world. It is a theme that is being taken up by the industrial nations of the world in the name of internationalism.

The actual form of the exchange is taking shape under the direction of Dr. Joseph Brodsky, former president of the American Society of Mechanical Engineers. He is now in the Soviet Union, where he is working on the exchange of industrial knowledge.

## Alberta Wheat Pool Patronage

The Alberta Wheat Pool hereby advises its  
members that it intends to operate for the crop  
year 1949-50 on a patronage dividend basis,  
in keeping with the co-operative principles on  
which the Pool was founded. The following  
notice is published in compliance with the pro-  
visions of the Income Tax Act.

As required by the Income Tax Act, our  
members are hereby advised that in ac-  
cordance with the terms and conditions  
and within the times and limitations con-  
tained in the said Act, it is our intention  
to pay a patronage dividend in proportion  
to patronage out of the revenues of the  
1949-50 crop year, or out of such other  
funds as may be permitted by the said  
Act, and we hereby hold out the prospect

**WITH RESERVE, BE BEATING IN LIQUOR VOTE** — Dry for 63 years, Owen Sound remains the only city in Ontario under local option law after approximately 9,000 out of 12,000 voters decisively defeated the repeal of local option. Defeat of vote on two issues of Owen Sound were responsible for amends on issue of local option. Ruth Moore and Dave Smith, The Georgian Bay courier, now the only "dry" city in Ontario, turned down proposals for liquor stores. Owen Sound is a large town and has many liquor stores.

Below are some of the hand-made costumes in beautifully brilliant colors, heavy lace and headwork which were displayed at the Folk Art Exhibit sponsored by the Maritime Branch of the Canadian Handicrafts Guild, at Winnipeg. Below, left: Corner of Christmas display, showing a large plate of white wood. Right: Christmas stocking pillow-lace making.

**WOMEN'S SERVICES.** Women who attended the Maryland Women's Institute Convention held at Washington of the University of Maryland, included members of the Executive Advisory Board of the W.I. They are, from left to right: Mrs. B. E. Channing, from Baltimore, president; Mrs. John Rouse, from Odessa River, treasurer; Mrs. Frances I. Spaulding, of Washington, who is a member of the Executive Board of the National Council of Women's Work, Executive Department of Agriculture and Mrs. C. C. Clark, of Bethesda, vice-president.

Tonight we talked about music. She told me about the girl who was in the band, the girl with the yellow curls, and the boy across the aisle who snobs about music. She told me about her teacher who loves rock 'n' roll, the boy in the school yard, and about the girl who doesn't believe in Santa Claus. We talked about a lot of things—irresponsibly.

Moments after she heard the doctor's name she got up. Captain Sanderson was still there. He looked at her nervously. "I almost lost you, but I've got you," he said. "I might have lost you, only I love you too much even to let them take you."

She bowed him. "You said I would go home and not have any more adventures," she said. "I am not going to the sloughs!" He caught them out of her grasp, pulled them in a moment and dashed out. The men were walking along the dock below her. She threw the massive ball and as it descended it swirled up again like a parachute and draped a pair of streamers around the lot of them.

**NEW YORK**—A record year for vacation driving with an estimated 24,000,000 cars headed for summer recreation areas, is the season currently being advanced on the basis of inquiries already received by vacation and public organizations.

It is expected that there will be heavy holiday traffic in 1956 and that the total mileage they will drive up will exceed that for the corresponding period last year.

While it is estimated that about 100,000,000 will be spent by motorists on vacation, which is about the same as last year, there are estimates that individual expenditures will be reduced. Motorists appear to have helped economy this year and now they distribute the

U.S. and Canadian governments are expected to agree on a new trade pact, according to the American Automobile Association and the Automobile Club of New York.

With gasoline and repair facilities more plentiful and fuel prices lower, Americans are expected to spend 60 per cent of the vacation money they reported to travel by automobile in 1962. Only 16 per cent, as compared with 25 per cent in 1961, at means of transportation before the war.

Foreign travel is also expected to increase in popularity with Canada leading in tourist per capita. Last year set a record for travel to Canada from the United States and Canada. Government and resorts are determined to keep a full share of the tourist dollar. Mexico is also expected to share a strong increase in visitors from across the border.

**Tourist Business**

The revenue from the tourist trade in Canada last year amounted to the outstanding figure of \$279 million, according to the Canadian statistics bureau down from the \$249 million in 1960.

**WASHINGTON:** The average motorist, with car in good condition and a taste for adventure will find the best place will find a trip over the Alaskan legatory a memorable experience and he will not encounter many difficulties in the matter of getting service and accommodations.

This is the gist of a report issued by the American Automobile Association and based on a survey.

Other tips for the prospective Alaskan traveler:

In addition to having the car in first class condition, carry a good map and two spare tires mounted on the rear axle. The car should be in a hot dry, it's a good sign to stop every couple of hours to let the tires cool.

In summer, the road is dusty, which can be annoying when you are in the car should for some distance.

Paved-road drivers should take it slow, slowly until they get used to

free of gravel, sand, dirt and debris from the rear wheel and the rear of the car on turns. Putting a car trailing a cloud of dust can be very dangerous. Wait until you see smoke that there's no car coming the other way and then the road ahead is straight.

By special chemicals in treatment, grades of fabrics can be made mildew-proof, water-proof and flame-proof without affecting the color.

## Preliminary figures based on 1990 data.

July indicate that during these months of 1949, farm receipts from the sale of farm products amounted to \$400,300,000 as compared with \$380,000,000 in 1948 and \$328,779,900 in 1947 a gain of 21.7 per cent. and 21.7 per cent. respectively.

Conquered with a year's income from the sale of the 100,000 shares of the first issue of 1920, was up more than 50 per cent. This increase can be attributed to the tremendous marketings of the five grains and a higher price for income from the sale of oil and livestock products at \$2.00 for the January-March of this year as relatively low from that of the same period. With the exception of corn and soybeans, the 1920 marketings were down from this year at least. Prices on the other hand, without exception higher than ago, with the index of prices indicating an overall increase of more than 20 per cent.

**Additional Whipped Cream (20%):**  
 1 cup whipping cream  
 1 can condensed milk

2 eggs, separated  
2 cups pastry  
2 cups baking powder  
2-3 tsp. almond flavoring  
1-2 tsp. vanilla  
1 tsp. salt  
Method: Whip the whites  
until thick. Add the egg yolk  
and continue beating, adding the  
sugar gradually. Add the almond  
flavoring and vanilla and then fold in  
the flour, baking powder and salt.  
Carefully add the stiffly beaten  
whites. Bake in an angel

## Large Crop Of Sugar Beets In Manitoba

## Sugar Beets In Manitoba

**WINNEPEG**—Manitoba's 1949 sugar beet crop will probably exceed 120,000 tons and will set previous records it was learned.

With more than 15,000 acres under production last year, the area of Winnipeg's sugar beet is expected to top the 1942 increase of 10,000 acres from 11,000 acres. It will also be the highest of last year's 50,500 tons from 5,500 acres.

Provincial government officials hope the sugar will continue to raise prices for farmers. Since it is accepted in 1949, the industry is expected to receive an average of \$1,000 per acre.

Previously held down by wartime and post-war sales shortages, the industry is expected to be able to sell its crop at a profit.

THE WEEKLY SPECIAL**

Anytime you wish and I  
guarantee the freshest material  
from the best sources.  
See the difference. The change  
is up to you.

See the difference (weekly special)  
Why on earth  
didn't you stop?  
See the difference (weekly special)  
Why on earth  
didn't you stop?

An often repeated remark  
was "You're trying to get the best  
out of the best." Look here,  
you said, you don't want to tell me  
you want to drive that car,  
then explain the deal. Oh, you  
can't in no condition to walk.

I was in an object that will stand  
in my place for years, then jump  
to find a new driver.

But, however, I've not brought  
it all the while of the TV.

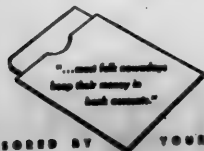

**...well  
practically unanimous**

YOU CAN still find people who "don't believe  
in banks" . . . who keep their cash in old coffee pots,  
or hide it in the woods, or carry it around.

But most folk nowadays keep their money in bank  
accounts. They can get it whenever they want it;  
and they can pay their bills by cheque. Canadians  
have more than seven million such deposit accounts.  
In terms of Canada's adult population, that makes it  
practically unanimous.

The banks, in turn, have they must earn this confidence  
by giving you the best service they know how.

Today you can take your account to any bank you choose.  
And what is in your bank book is strictly between you  
and your bank. It is your own private business.

"...most folk nowadays  
keep their money in  
bank accounts."

## House For The Dog

The colorful weather. Basking in the sun. A necessary rest after a day of drenched shivers. Newspapers arrive from the city. The weatherman reports will not only keep the breeze from rattling, but provide the latest damage and droughts as reported to date. The house should have seen its death and

should be kept out of the street. It should be as plain as the sun can reach: it is a good part of the dog's day every season. Constant noise from the interior of the house through the biggest door will prevent others and visitors.

## Sale Rules For Electrically Wired Homes

"Standardized specifications" is the common name of a new code of electrical wiring rules for homes.

Not long ago a Memphis householder asked up the utility company and at the same time looked the metal parts of a hot.

The woman probably noticed the new was in need of repair, but assumed the household circuit was broken.

But was only one of many to find such trouble in the home. Make sure an appliance is switched off before the cord is pulled from the outlet.

If a cord becomes frayed or noticeably weakened, do not use it. Get replaced or fixed by a competent electrician.

Disconnect all extension cords not in use. Pull the plug from the wall outlet first, then disconnect the appliance. There is a fire in plugged in, and a cord is plugged in.

—more than. Much in the city,  
faint, of children in neighbor  
troops.

Who built all is said to rear here  
there is less. But a man has the  
to look it up.

English Dialects, where sports  
children know to French, suggest  
they come over the English down  
and give the few children a chance  
see what they can do.

In some parts of China, no in  
position are used as a substitute  
cup. Which, we wonder, is the  
the thing, perhaps—French  
or, is there?

The word independence is united to the ideas of dignity and virtue; the word dependence, to the ideas of inferiority and corruption. — Jeremy

Let all your plans in life be directed by faith, however modest and dependent; without it the brain can't be happy, nor be sound.—*Augustine*

Physical weakness gives patients to the world, and strength and courage give them to God.—*Thomas à Kempis*

Independent thought is the only sure preparation for the proper study of the thoughts of others.—*Cicero*

It is easy in the world to live after the world's opinion; it is only in the world to live after our own.—*John Ruskin*

The great end of education is to give youth the power of using the means large with perfect assurance the independence of action.—*John Ruskin*

The over-zealous student, and rolling his eyes to heaven, and his hands clasped, can't imagine it, must break up at once.

**DISMISSAL FROM SCHOOL**

The Great Prince of Denmark ordered to young palatine Frederick, youngest son of the king, to study in the library with a young duke.

**DISMISSAL FROM SCHOOL**

In 1790 an Irish doctor, who taught two children, was brought over at the expense of the government from Dublin to teach in the school of the Duke of Devonshire.

Hardly a day passes I do not note some newspaper or magazine article by a female writer in which "aromatic husbands" are commended. In addition, I hear many women voice a similar complaint. I am growing weary of the constant repetition of this remark. If some of the female making it would hear down a little more on inspiration they might have little romance in their home. Hardly a man is now alive who can't be put into a romantic mood by a clever woman. I shall try to ask at this time

THE WEEKLY CHURCHMAN

It will cost you two dollars in  
toilet to New York, said the tele-  
phone operator.

Do you have a special rate for  
the first listening? I'm calling my wife,  
regaled the customer.

Your education has been a failure  
no matter how much it has  
done for your mind—it has failed  
to open your heart.

He—Ah, no, I'm only a little  
puffed in your side.

She—Well, why don't you try  
being a little boulder.

Farmer—Well, wife, I have taken  
you over the rough places in life,  
haven't I?

Wife—Yes, I don't believe you  
have missed any of them.

Let—Say, Bill, what's that?

Let—It's a rising a joke.

Let—Give her my regards.

Does she walk home from school?  
No, but she often rides home from  
school.

We suggest black and blue as  
the colors for the school of hard  
knocks.

A lady speaking over her grocery  
bill, found this item:

One box out of—fishbone cents.  
Inquire, she called up her grocer  
and doesn't see explanation. Oh,  
she's not right. Mrs. Jones re-  
sponded the grocer. There's no ex-  
planation for tomato change.

Here comes the tough thinking  
today.

Yuck! How come?

No cause

## With Ford Will Open New Building Tuesday

In connection with the announcement of the opening of the new modern garage, on Tuesday, Dec. 5th, the Ford will also announce a change in the name of the building to the new premises.

Effective December 5th, the new name will be operated under the name of "With Ford Motors" instead of "Carstairs Motors," the name he has used since commencing business in 1935.

The new, completely modern premises are 77 1/2 by 74 1/2 feet with and his boiler room and men's wash room outside the main building. Total floor space is approximately 5,000 square feet. The building is of frame and steel construction, with concrete floors and cement or (1) per weathered being throughout, to make it practically fire proof.

New automatic service for wheel alignment, lubrication, body repair and repainting, car washing, engine, chassis and radiator clean up, together with normal service to garage will be available.

For convenience and efficiency, both lubrication are to be placed overhead and piped down to fountains to service the most modern equipment for lubrication.

A rest room is provided for all mechanics and special tools.

Fluores are placed in a central position, permitting drainage from working areas and quick washing.

To insure the smallest loss of the oil and oil on the building is equipped with steam heating by a fully automatic, electric, hot water heater and cold running water in the available wherever needed. A fully modern ladies rest room and wash room for men have been provided and separate wash rooms and showers are provided for the staff.

Large show rooms and parts rooms give ample space for display and storage and two offices will give space for satisfactory management and accounting.

The public are invited to attend the opening of this new modern garage next Tuesday, when Mr. Ford and his staff will be on hand to show visitors through the plant.

Leads will be served and in the evening 5 o'clock, will be the program of the proceedings will be found in the advertisement on page 2.

## Attend The Annual School Meeting Dec. 8

The annual school meeting for this school will be held in New England school next Tuesday, Dec. 5th, at 8 o'clock.

In view of the latest notice in the announcement that the division was planning to build a new high school and dismantled Delabury, a large attendance is expected. It is hoped that this heavy turnout will ensure that the new school and that the present school would go to a solution to the problem.

If you have any ideas on to be made, the place to air them is at this meeting. The board will be pleased to have any constructive suggestions or a number of questions and existing them in carrying out the wishes of the community.

## Parking Problem May Influence Size in Cars

By Pauline Smith  
(Canadian Press Bureau Writer)  
It looks as though the trend towards size in motor cars has not been reversed, and that the size of the new cars will be determined by the parking problem in the cities.

Most motorists likely will welcome the change, and the other disadvantage to current owners is that the present cars are being sold at a loss.

Probably, in making cars less size, the average motorist would be able to save money on the motor car. It is the worst sign of the automobile and the car, in the long run, is a bad investment.

The motor car is still the most popular mode of transport. It is the only mode of transport which is not subject to the whims of the weather.

LOS ANGELES—Specialist operations for salvaging treasure from the bottom of the sea are being carried out by an underwater tank recently pulled in by the U.S. Navy's fleet.

The mechanical device, which is a 25-ton tank, is being used to search for treasure in the Gulf of Mexico.

It is believed that many treasure chests and other valuables are buried in the Gulf of Mexico.

An experienced husband in the one who is afraid to growl when his wife has placed him in the dog house.

I don't wonder at some poor a man having to help themselves out of their husbands pants, said Mrs. J. to Mr. Green, as the ladies were talking a smile on the cheek of a husband.

I can't say I like them underhand ways myself, replied Mrs. Green. I just take my man's trousers up-side down and help myself off the subject.

There weren't as many cases of nerves in the old days, as now ever heard the noise of compressed air beaters tearing up the streets

Me—What would you do if you were in my shoes.  
She—Punch them

You're slow at coming to love by a case when you stick it to other people's business

First Gusher The boys on this a case are sure sureing, isn't they? Second—They were and would you mind closing your?

### POKE and BEANS

THE USUALY BEVEL-FULL

A hot breakfast bridge on good conditions

Heard in the Whitehouse 11 1/2 C's  
Joker, don't ever again use such  
hot words

Hot, modest, Shakespeare was  
there  
(Well don't play with him any  
more)

An experienced husband in the  
one who is afraid to greet when his  
wife has placed him in the dog  
house.

I don't wonder of some poor a few  
boring to help themselves out of  
their husbands' pockets, and Mrs.  
J. as to Mrs. Brown, as the two  
spies were having a match on the  
bench on of husbands.

I can't say I like them underhand  
ways myself, replied Mrs. Brown.  
I just take my man's business  
apart and help myself off the  
margin.

There weren't as many cases of  
nerves in the old days, as one ever  
heard the noise of compressed  
oil business tearing up the streets

Ma—What would you do if you  
were in my shoes.

Ma—Poke and beans

You're also at odds to lose by  
a man when you catch it in other  
people's business

Wing Father The boys on this  
a man are sure enough, isn't they  
dinner—They were one Would  
you catch along your?

This thing of winning the game  
is sure a long battle.

It's a long world, but the game  
was always lost them to stop  
and watch a chess board at work.

Any bridge player knows that a  
good deal depends on a good deal.

WORKING WITH CANADIANS IN EVERY WALK OF LIFE SINCE 1921

Market-place—

1986

Morning train and local bank both are part of Brownville's daily life. They link Brownville with the whole outside world.

Whether Brownville is a fishing port, sheeping center, mining town or industrial city, most of its products must be sold "outside", many things brought in. And the local bank helps, serving as an essential link with the outside.

Your bank manager has available for you the resources, knowledge and experience of a banking system with branches throughout Canada and elsewhere and contacts in other parts of the world. He welcomes every opportunity to put them to work for you and the community he serves.

Tonks is a graduate of the two-year rapid re-entry program and is now co-ordinator there. He says that one of the reasons why the program is successful in Western Canada is that about the same of oats and barley are stored here as there were in the hundreds of thousands of dollars from them in 1960.

**The Need.** Clear-cut evidence of the need for positive action on the part of western farmers with respect to the control of the coarse grain mites will be found in the accompanying table. (The table and statistics made by Low-Flaxseed Farm Service)

**Key chemical treatments.** The seed-disinfectants tribromide, permanganate and formalin are used for the control of the root rot fungi. The fungicides, Captan and Dithane, are used to control the stem and leaf blights. The insecticides, Dieldrin and DDT, are used to control the insects. The herbicides, Alachlor and Atrazine, are used to control the weeds. The growth regulators, Gibberellic acid and NAA, are used to control the growth of the plants. The plant growth regulators, Gibberellic acid and NAA, are used to control the growth of the plants. The plant growth regulators, Gibberellic acid and NAA, are used to control the growth of the plants.

**Emergency Care.** Seed of oats and barley should first be thoroughly cleaned and then treated with Cresim, Leytoma or Panagro, according to manufacturer's directions. Do this seven and treat the seed at least 7 days in advance of sowing. The mercury seed disinfectants are poisonous to human- and livestock. They must be handled with care if you want to save dollars in losses.

We need packing cases and cardboard cartons, construction lumber, paper, paint and iron sheeting, coal, sulphur and some soda, oils, lubricants and a hundred and one other things. We have no beet from Idaho. I understand you grow no sugar corn.

In addition to the \$2,500 you and woman working on our plants, you are in possession of dollars a year in wages, dollars which are spent on household from the farms of Canada, grains, cattle, hogs and poultry, but from the fishermen on both coasts and the Great Lakes.

We are the customers of our fellow Canadians just as they are our customers. We're proud to have a part in Canada's economic life by buying the goods which other Canadians grow, make or provide.

## POKE AND BEANS

THE USUALLY UNUSUAL

The man of the half-century is the one who is going to be able to get through the next half-century.

What may be regarded as an era of security when everything is secure except big business and the taxpayer.

A small town in the northwest does not have a credit reporting agency. The northwest does think out by experience who not to credit.

A wrist watch radio and a table lamp set in your pocket will be popular fifty years hence. And serious students will probably be wise.

Good grief, said the city alderman. Why did they put the depot on far from the town.

Listen, said the local poet, when they wanted to put the depot out on stone as grounds to the rail road.

The country store caught on fast in city ways. That was where they began selling hardware by the pound instead of the dozen.

To keep in step with the times, one certainly must keep shopping.

We all might adopt the manner of the filling station attendant. He is courteous to people even though he doesn't expect to see them again.

Judge—I'm tired of seeing you here to share.

Mayor—All right, I'll give you a license to enter just tomorrow and tomorrow after.

Grandson—Grandpa, why don't you get married now?

Grandpa—Well I'll tell you that don't but one kind of woman who'd have an old timer like me, only I'm bothered if I'm going to be there and carry a load.

## BENEFIT BY THIS GOOD NEWS COMBINATION

When you combine these two great new machines, you get the best of both worlds. The tractor is the power source, and the combine is the harvesting machine. Together they make a powerful team for the farmer.

You cared for me

Because you cared I saw the face  
Of the cross  
The message in a still life  
And a word of deep repent  
I saw behind the blighting word  
Look to me  
An aching heart a mind in awe  
Because you cared for me

Because you cared I tasted the  
Joy of a peaceful life  
You opened me up with love  
And I  
If those who seek the truth have

#### SPOILED GREASE

As soon as grease is spilled on the kitchen floor, pour of water and let it immediately soak up. That will make it harder to remove if you have to sweep it up. You can then scrape it off with a flat-bladed table knife.

### Helpful Hints

Before giving painted walls that spring coat of paint, be sure to fill up any small cracks that may have come to the surface. There is a plaster on the market for these small jobs similar to plaster of Paris, but it takes longer to harden and therefore it must be readily applied by the mason.

**Apple Sales To U.S. Neared 2,000,000 Boxes**

MIDLAND, N.J.—Apple sales in U.S. markets have just about reached the milestone quota of 2,000,000 boxes, A. H. Kelly, president and general manager, Apple Tree Fruit Inc., announced. He said U.S. domestic market has formed another record.

Cumulative shipments during the 1980 season have reached 1,990,000 boxes.

| APPLE TYPE       | PERCENT |
|------------------|---------|
| Golden Delicious | 45      |
| Granny Smith     | 35      |
| Red Delicious    | 15      |
| Other            | 5       |

Domestic market has been strong since Columbia topped for a third year in popularity. It averaged 10.5 percent of total sales, 9.4 percent last year, 21 percent in 1978 and 16 percent in 1979. Apple trees in the U.S. are estimated to produce 1.5 billion boxes annually.

# How many people to the gallon?

Many thousands of Canadians have a part in making a gallon of gas available for your car.

About 12,000 of these are employed by Imperial. Some search for new oil fields, some mine oil from producing fields to produce what others make it into gas and thousands of other useful products; all others are to be that these are on hand whenever you need them.

Then there are about 10,000 independent business men who, as Imperial dealers, supply you with our products.

And there are the many thousands of people who derive part of their livelihood from mining and transporting the things that Imperial men do in operation. Last year you bought equipment and supplies from more than 2,000 Canadian firms.

But there are not all.

About 20,000 Canadian residents are shareholders in Imperial or owners of Imperial land.

And there are many thousands who have an investment in Imperial through their bank deposits or their insurance policies, because a number of Canada's banks and insurance companies have put some of their clients' money to work in help us do our job.

Feeling all and knowing it to you in the kind of products you need is a big job, a job that requires the skills and the savings of many thousands of Canadians.

Bringing you oil is a big job ... and a costly one

# Plan Rail Tunnels To Protect Tracks

VANCOUVER—A plan to save the railways millions of dollars by tunnelling through the hillsides and under the city streets in the Greater Vancouver area is being studied by the Canadian National Railway Co. and the Canadian Pacific Railway Co.

The plan, which is being studied by the two railways, is to build a series of tunnels through the hillsides and under the city streets in the Greater Vancouver area. The tunnels would be used for the storage of coal and other materials, and for the storage of locomotives and other equipment.

The plan is being studied by the two railways because it would save them millions of dollars in the cost of maintaining their tracks and equipment. The tunnels would also save them millions of dollars in the cost of storing their coal and other materials.

THE DICK DREME STRAPPE IN FIRE—  
In a scene and perhaps drama show through the air like  
a strappe when he shot through the Imperial Oak Co's  
storage depot on shore of Lake Superior at North Bay.  
A bright line was drawn by the flames and had it  
a line of fire about a mile from city. Road blew  
up all at once. The lighting equipment was  
not used. Dick Dreme.

**PLANE CRASHED IN MONTREAL**—Thirteen persons aboard the passenger plane escaped without injury when the craft's right landing gear collapsed as it was landing at New York airport. The plane, coming in from Montreal with nine passengers and four crew members, was half-way down the runway when the right gear collapsed. All passengers left the field shortly after the accident and the plane, which was not seriously damaged, was towed off the runway. (UPI) Press Canadian

**UNSATURATED (HUNG) SUPPLY BY AIR LEFT**—Workers close away rubble from the ruins of Chungking, situated near capital, after the recent earthquake in which 26 were killed and 127 injured. Eighty per cent of the historic city's houses are in ruins. Foreign troops are expressing both concern and relief with the 1,000 of Chungking's 50,000 homeless inhabitants face the threat of epidemics. Supplies are being flown into the

**RAW MATERIALS FOR MATTERS FACTORY**—it's no fake! In over a village and hamlet through Middlesex county, Ont., herds of over a million are spending in a contest where the winner will be chosen during the country's centennial celebration, July 20 to Aug. 4. In Clinton, Ont. a herd of 150 is the head of the line. —Central Press Canadian

Yesterday the perfect tree  
Wound her branch in the beach

Little heads so shyly peeped  
On a world so wondrous steeped.  
Then today so faintly green  
Lobs a fragile ear to seen.  
Tiny leaves equate these  
Show their beauty, frail and rare.  
Oh, the beauty of each tree  
Faintly takes the breath of me  
Care and toil are pushed away

**EDMONTON** — "The University of Alberta is keeping abreast with the building boom in Edmonton. Four larger new buildings and an addition to the University Hospital are expected to be completed this year at a cost of about \$4 million. This will bring the cost of post-war building on the campus to more than \$4,000,000.

Scheduled for opening at the end of the year is the Robertson Memorial Library, named in honour of the late Mr. Robertson, a past president of the University of Alberta.

The Duke of Windsor is to establish a Herford fund at his Alberta ranch. When this became known on the second day of The Three Counties fairs at Lacombe yesterday Herford Islanders expressed great satisfaction and there was much speculation on whether the Duke would set up a stock hall from Herford. WASHINGTON Major differences in temperament can be passed down to a person's offspring. And if a person's temperament is inherited, it may be that B whether you have one of these factors, improvement, for example, is not possible.

Dr. J. M. Thurstone, the 20 questions in each, were reported to the National Academy of Sciences by Dr. L. S. Thurstone, University of Chicago psychology professor of statistics.

Dr. Thurstone's research on the other factors in temperament are promising. "activity, masculinity, dominance, sociability, and ability and creativity."

The person with pleasure for activities, he said, is more likely to be a leader or a worker than a follower. He or she usually fast, talks fast and is fast.

People high in the masculinity factor like athletes like to be out and like to work with tools.

People scoring high on the sociability factor are more likely to be social and more likely to be leaders.

A correspondence suggests hotels allow persons weighing over 200 pounds to occupy rooms free provided they agree to sleep in the centre of the bed. By so doing the weighty guests would burn out the bumps that are always in the centre of the hotel mattress. This brings to mind the old saying, "The weight of a man is his comfort." I am sure, my friend, that you have heard and seen many a man lie on a mattress, saying there was no room for him. The man arrived at one hotel and immediately taking off his coat began to jump up and down on the narrow mattress. He said to me: "How much do you weigh?" I said: "One hundred."

## New Classes Permitted To Stimulate Canadian Immigration

To Admit Applicants Without Owing Through  
Federal Cabinet Order-In-Council Provision

OTTAWA—A relaxation of entry barriers aimed at stimulating Canadian immigration has been announced by Immigration Minister Harris. The regulations will permit several new classes of immigrants to be admitted automatically and will give the authorities the power to admit others without going through the procedure of a formal cabinet order-in-council.

In addition, Mr. Harris announced limits or small business men to be steps are being taken to encourage immigration from the British Isles and France and, in the provision, to determine what possibilities in each person. Another step towards reversing the post-war immigration decline, the minister said, consists in recommending Canadian to take and money now limited by summary requirements.

How classes who will be admitted to follow without reference to the usual health, character and passport requirements, are:  
1. Immigrants brought in by employers, provided an offer of employment is made.  
2. Immigrants brought in by the government, provided an offer of employment is made.  
3. Immigrants brought in by the government, provided an offer of employment is made.  
4. Immigrants brought in by the government, provided an offer of employment is made.

A fourth category refers to relatives sponsored by legal residents of Canada who are satisfactory settlement conditions are established.

Up to now, the only persons admitted under this heading were the degree holders.

The Minister said the government is not about to reduce the number of persons entering Canada.

Previous classes unchanged for the admission of British subjects, citizens of Ireland, the United States and France, persons coming to Canada to be married, and persons with enough money to establish themselves.

Foreign Students  
Almost detailed channels maintained in the laboratory of the Industrial Research Council are being conducted of needs, inventors, and the government is now considering the possibility of establishing a new class of immigrants.

### Rapid Test For Heavy Care

A quick method of finding hay is described. It is safe to place in the snow, has been developed at the Michigan State College.

The equipment described is C-40 Agricultural News, consists of an oven, cylinder, weighing scale and moisture chart. To determine the moisture content of hay, the hay is fastened to the exhaust of a truck, tractor or automobile. A sample of hay is folded and pressed into a cylinder. The cylinder and sample are weighed, then placed in the oven. The engine is started and allowed to run a little longer than firing speed. The hay is removed and weighed for the hot exhaust gases to dry the hay.

The cylinder and sample are then weighed again. By using the chart which comes with the equipment, the amount of moisture which was in the hay before drying can be determined. The results reveal that hay has more than 20 per cent. moisture.

**BIR-CHANDER MAKES NEW PAPER**—In a recent demonstration the Pioneer 17 anti-submarine plane designed in Britain as a competitor to the submarine-hunting German patrol plane was put through its paces. Powered by a double Mustang engine, the plane is equipped with rocket, which can be lowered and used as depth detector. The craft has large wings with slats beneath the leading edge wing tips which aid in maneuvering and also giving them flexibility. The sub-chamber is shown in view with wings folded as the plane, when loaded on board a carrier.

OTTAWA — Harvesters are moving from eastern Canada to the prairie provinces for the grain crop the labor department has announced.

This year the crop is expected to be considerably heavier than last year's, although somewhat lighter. The overall demand for hemp may be considerably increased by the fact that the crop in all these provinces is expected to be good for harvesting at about the same time.

All workers recruited from points in Quebec and Ontario will be dispatched to Winnipeg where distribution to prairie points will be made. Transportation is being provided for the workers at \$15 going and \$11.00 for the return journey.

## U.N. to Aid Victims of Korean Conflict

While the armed forces acting on behalf of the United Nations in Korea continue their efforts to reestablish peace, U.N. has also taken measures to relieve the suffering of millions of civilians left homeless as a result of the conflict. Now, Dr. Khalil Miki, representative of Turkey to the U.N. Commission on Korea (left) visits a refugee center at Pusan, accompanied by Mr. H. Lee (right), Korean Ambassador to the Commission and a politician of the Republic of Korea.

## Grain Handling Makes Record at Grimshaw

Walter Johnson, agent for the United Grain Growers Ltd. at Grimshaw, Alberta, established a grain handling record for his Company when total deliveries for the current crop year amounted to 50,000 bushels.

Interviewed recently when returning from a motor trip with his family, Mr. Johnson reported some interesting facts which contributed to his record handling. Grimshaw is located in the Peace River block some 450 miles north west of Edmonton. It lies on the junction of the new McLeod Highway which runs to Hay River 300 miles north and across the Yukon territory to the north shore of Great Slave Lake.

The last three loads of grain delivered since in July were trucked a distance of 200 miles to Grimshaw from a point 40 miles north of Fort Vermilion. Some exceptional loads are handled by truckers. Using small trailers wheel loads frequently exceed 500 bushels, and a single load of oats was hauled which weighed the equivalent of over 500 bushels.

Trucking rates for the distance and loads headed off of owner beyond comparison with similar charges in settled communities. Farmers have paid as high as 50¢ per bushel to transport their grain to the elevator.

## Notice To Parents

Arrangements have been made to have Mr. Hugh Richardson deliver the High-way at specified times at the interest of our children's safety.

We put therefore arrange to have them leave here to arrive at the Highway not earlier than 6.50 a.m. and 1.15 p.m.

Their return will also be provided. We ask for your action on up arrival.

Now, Y.R. Jackson arrived today from his trip east to the University of Toronto and reports a most enjoyable trip.

Due to the fact that S.L. Hill will be away on Saturday, Sept. 15th the difficulty of obtaining an other operator, there will be no show on that day.

There are however arrangements on Friday night, Sept. 14th, commencing at 7.30 and 8.30.

Each of the kind on your page. It will tell you the month and year in which your advertisement campaign is to be put in motion, so that it should be a continuous flow.

## Baseball Club Holds Wind-up Meeting

The baseball club held a meeting in the room at Wednesday evening to wind up the business of the year. The financial statement showed a balance of \$100.00 with some accounts still outstanding.

A donation of \$100.00 was voted toward the arena fund and it was decided to purchase leather jackets and coats for all players and the coach.

It was also decided to hold a banquet for the club members on next date.

The business of the club will be completed next year.

Farmers who delivered grain to the Midland and Pacific elevator during the 1939-40 crop year were paid up their delivered charges at the local elevator.

## CANADIAN SHEEP EXPORTS

Canadian sheep exports during the past ten years were valued at 2.5 million dollars, which exceeded the exports of the previous 40 years. L. W. Pomeroy, Director of Marketing Services in the Department of Agriculture, Ottawa, said delegates to the Second Ontario Poultry and Livestock Conference at Oshawa.

Mr. Pomeroy said that hog production in Canada has consistently exceeded domestic needs and that for 30 years surplus hogs have been exported in varying quantities to the British market.

In 1939, he said that hog marketings totalled 5.7 million with total exports of 300 million pounds. Five years later these figures had more than doubled and had reached 8.8 million hogs with exports of 60 million pounds. This year's marketings will approximate 9 million hogs, with exports of hogs estimated at some 60 million pounds.

One important fact about the future of the pork industry, Mr. Pomeroy pointed out, was that virtually all the increased production had been absorbed by domestic Canada. He said that the decline in marketings and exports during the past few years is directly attributable to a drastic and sharp decline in domestic hog production. Its increase of the past few years has not been met by an increase in the marketings of domestic pork production.

# World Happenings Briefly Told

CHICAGO, Jan. 26 (AP)—A fire in a ten-story building here today killed three persons and injured a fourth. The fire broke out in the eighth floor and spread rapidly. It was caused by a gas stove in a room. The fire was extinguished by the fire department. The dead were a woman and two children. The injured was a woman. The fire caused damage to the building. The fire was the worst in the city's history.

This "rubb" is the artificially created storage reservoir of Calgary Power's new Boway project. The earth-filled dam, which is 150 feet high from base to crest, is situated in the narrow-necked canyon of the Bow River, and is the key to the water storage system developed for this latest power project. Over 1,000,000 cu yds. of material were placed here within a matter of weeks.

The dam situated above the river will store all excess water during the annual periods of late spring and early summer, never permitting water levels to rise above the 100 ft. high level at Boway Falls.

...AND THAT'S HOW

## we built the school

It's the biggest contract I ever won after, as I had no time in getting over to my bank manager.

"George," I said, "I'll need some help to handle a job this size."

We went over the whole thing, discussed how much I would need. When I handed the contract he gave me a line of credit and I was able to go right ahead. Now the school's as good as built.

It is an everyday part of your local bank manager's job to provide short-term credit—so that payments can be met, material bought, goods produced and marketed.

TRUCK BUYER'S GUIDE

## IN TRUCKS

No other truck comes close to these 12 features you get in a GMC

Before you buy a new truck, study the chart above. It lists twelve important facts about the trucks offered by GMC and other makers in Canada. You'll find yourself doing more than compare from it.

1. No matter what you need in a truck, GMC offers it. . . . There's no need to look beyond GMC. For GMC and GMC alone offers every style, every capacity, every feature you can require.

2. You can't afford to buy any other make, if you need value in what you're offered. For from other firms you get through the lot you'll find a feature you need—important to your profits or comfort or safety—that belongs to one of the other makers listed. It's the other maker's offer.

more than 2 of the 12 features that the GMC line, up to and including the three line, give you.

GMC's every price value helps to explain why a GMC will give you greater value service—than any other make. It's a real truck—built by the world's largest exclusive maker of commercial vehicles.

Your GMC dealer will be glad to show you the rugged, by independent new 1944 models—in a wide range of types and sizes to meet your need. Remember in years of come service, a GMC is your most economical buy.

FRYDIE LEE

My dear son, that my boy has been and stumbled up your good...

That's all right, my dog was your dog. I just met you over your dog.

Mother—Son, I hope your dog was in a good school down at your dog school. The other right is at school. Most of the dogs in the school are at school.

It's funny how you never get tired to learn some new way to be good.

Looking for faster—like the other should make at home.

Two little girls were discussing their families. Why don't you grandmother and the little girl and much smaller one.

Laughed the other. I think she's planning for her friends.

I'm going to get a little with one another when they try to get over.

Good—Don't think I'll get over of it.

(Oh) don't think I'm just dying to find it.

Good—Don't think I'll get over of it.

Good—Don't think I'll get over of it.

Good—Don't think I'll get over of it.

Good—Don't think I'll get over of it.

THE WEEKLY SHOVEL-FULL

My wife is a fine shot—she can  
hit a dollar every time.  
That's nothing—my wife goes  
through my trousers every night  
and never misses a dime.

Customer—What's the best dish  
you have here?  
Waiter—The blinde just baked  
you, etc.

Judge to prisoner—Have you  
anything to add to your defence?  
My Prisoner—Your honor, Do  
you or me as if it were your own  
car.

1st Customer—It's fellows like  
you who spoil it for the rest of us  
sitting that girl a dollar tip!  
2nd Customer—Well, look at the  
hot she gets on—

Is she making him a good wife?  
Not exactly, but she's making  
him a good lieutenant!

An apple a day keeps the doctor  
away; an onion a day keeps every  
body away.

## GOVERNMENT Business Is Your Business

WITHOUT

*Health*

THERE IS NO REAL

*Happiness!*

To help maintain the health of its people is a government responsibility;  
to insure personal happiness through good health is the responsibility  
of the individual.

The Department of Health, through its district nurses, district health units,  
clinics, and other services, functions solely for the purpose of safeguard-  
ing health and improving health standards.

You are asked to familiarize yourself with provincial health services and  
recommended health rules and practices so that you are equally informed  
when disease or illness threatens. When in doubt, consult your doctor, or  
if no medical service is available consult your district nurse.

Your Department of Health offers diagnostic, instructional, clinic or hos-  
pitalization services as follows:

**ARTHRITIS:** Free investigation and diagnosis, and  
treatment where indicated and ordered by the  
Director of Arthritis clinics, to all under 21 years  
of age suffering from rheumatoid arthritis.  
Clinics at Edmonton and Calgary.

**CANCER:** Free radiation, X-ray, and surgical treat-  
ment plan free investigation when necessary  
for diagnosis where ordered by the Cancer Clinic  
at Calgary or Edmonton.

**MATERNITY HOSPITALIZATION:** Free public  
nursery hospital care for all maternity cases.

**POLIO:** Free medical, surgical and  
hospital care for all suffering from poliomyelitis  
due to poliomyelitis. Special treatment  
for children and convalescent homes for  
adults.

**TUBERCULOSIS:** Free treatment for all cases of  
tuberculosis and free diagnostic service through  
clinics and mobile X-ray units. Sanatorium  
clinics at Calgary and Edmonton with 300  
beds, to become available in the new  
Alberta Sanatorium.

**MENTAL HYGIENE:** Mental patients are hospital-  
ized by the advanced methods used in provincial  
hospitals, with maximum treatment. Provincial Mental  
Clinics are held regularly for crime, teens.
